SUMMARY

Recent Bachelor of Science in Information Technology graduate with hands-on internship experience in React Native front-end development, application testing, debugging, and research on application security practices. Contributed to developing and improving user-friendly mobile features while collaborating with a software development team. Seeking an entry-level IT or software development role where I can apply my technical and problem-solving skills while continuing to grow professionally.

WORK EXPERIENCE

Consolidated Matrix Incorporated **March 2025 - June 2025**

Front-End Programmer Intern | 500 Hours

- Developed and maintained front-end features for a React Native mobile application, delivering functional and user-friendly components based on project requirements.
- Diagnosed and resolved front-end defects through systematic debugging, improving application reliability and supporting a smoother user experience.
- Researched common application security risks and preventive practices, helping the team identify opportunities to strengthen application security.
- Tracked assigned tasks and coordinated development activities through Azure DevOps, GitHub, supporting organized collaboration and timely completion of project responsibilities.

PROJECTS

Kulture: 3D Mobile Learning Application (Capstone Project)

- Developed a 3D mobile application that used interactive Philippine cultural games to support Grade 5 learning aligned with the DepEd MAPEH curriculum.
- Applied kinematics-based physics and numerical methods to simulate realistic character movement and gameplay mechanics.
- Conducted application testing with Grade 5 students and evaluated their feedback, identifying opportunities to improve usability and the overall learning experience.

SKILLS

Development Technologies: C++, C#, JavaScript, PHP, HTML, CSS, XML, React Native, React.js
Databases: MySQL, Oracle Database
Tools and Platforms: GitHub, Azure DevOps, Unity
Design and Media: Figma, Canva, UI/UX Design, Video Editing
Testing and Support: Application Testing, Debugging, Bug Reporting, Basic Troubleshooting
Core Competencies: Problem-Solving, Team Collaboration, Communication, Adaptability

EDUCATION

Bachelor of Science in Information Technology **2021 - 2025**

Technological Institute of the Philippines

CERTIFICATES AND SEMINARS

- **Cybersecurity Buff: Defending Against SQL Injection and Brute Force Assaults**
  Technological Institute of the Philippines - Quezon City | April 17, 2024
- **Building Cyber Resilience: Navigating the Landscape of Cybersecurity**
  UST Blessed Pier Giorgio Frassati Bldg. Auditorium | March 13, 2024
- **Breaking Down YOLOv8: The Ultimate Guide with Roboflow Integration on Raspberry Pi**
  University of Caloocan City | May 01, 2024
